Senior Project Keeping a BLOG

Every student on Senior Project is required to keep a daily BLOG of activities and complete weekly reflections. Students whose Projects will not have constant internet access must coordinate this concern with the Senior Project Coordinators.

Daily Activities:
1. Discuss your day’s activities and any reflections on your project. The minimum requirement for daily BLOGs is 7-10 sentences.
2. Be sure to date each entry and state the time when the entry was written.
3. Include total hours spent on Senior Project for that day, as well as the total number of hours for the entire project.
4. It’s recommended that you write your daily summary in a Google document, and then cut and paste them into your BLOG, this ensures you have used spell check, grammar checked and proofread your BLOG before posting.
5. Add pictures or videos to your daily BLOGS.

Weekly Reflection:
1. Weekly reflections should be at least one page in length (double-spaced).
2. It’s recommended that you write your weekly reflections in a Google document, and then cut and paste them into your BLOG, this ensures you have spell check, grammar checked and proofread your BLOG before posting.
3. Weekly reflections must be in complete sentences and should address the following questions:
   * What did you learn this week?
   * Did you like what you were doing?
   * Did everything happen as you expected or were there surprises?
   * How will you benefit from this week’s activities?
   * How does what you do help you achieve your goals?

You must share your log of hours, your daily activities and a weekly reflection, with your Advisor at your weekly meeting/check-in.

The BLOG, the Self-Evaluation, timesheet, and the Mentor Evaluation must be reviewed by your Project Mentor prior to being submitted at the end of your project. Your committee will read your materials before or at the Express Fest Senior Project Exhibition. The BLOG is required to pass Senior Project. Keep in mind that your BLOG will help you immensely in writing your crucial Self-Evaluation paper at the end of your project.
