Senior Project Self-Evaluation Paper Guidelines

Your self-evaluation paper should reflect the same care that you put into your project. It is the document that will show your committee how you achieved your goals and, as a result, will explain why you should pass Senior Project. Please note that your entire committee will read this, along with your Blog, as well as visit your exhibition table before grading your project.

The Self-Evaluation should be at least 1000 words, typed, double spaced, in 12-point font. The paper must be present at the exhibition for review in order for your project to pass. You must also share the google doc with your committee members, advisor, mentor and senior project coordinators by 5pm on Tuesday, May 26th, 2019.

Guidelines:
Use an overarching thesis statement. Use formal essay style paragraphs, transitions, complete sentences, proper spelling, and correct grammar. Reread your Blog for inspiration and ideas. In the third week of your project, your Mentor can give you valuable feedback if you need it.

Include the following elements:

1. Goals from the proposal.

2. How you attempted to achieve these goals.

3. Explanation of any goals you could not achieve.

4. Benefits derived from your experiences, and also negative aspects to the project. Explain clearly.

5. Specific skills you learned.

6. Personal qualities you developed or discovered in yourself, for instance, self-reliance, discipline, compassion, creativity, perseverance, etc.

7. Any person or persons you found particularly helpful to your project.

8. If you had to do it all over again, what would you do differently?
